

# ETR100U

## MSRP \$8,949

Your electric cargo trike awaits! The ETR100U is a compact and sturdy electric tricycle that is designed with deliveries in mind. UberEats, DoorDash, GrubHub, Instacart are all feasible and practical with the ETR100U. Or set up at your local farmers market and display your handmade jewelry or pastries.

You don't have to worry about distance; it has up to 50 miles of battery range and a top speed of 28mph. That should be enough mileage to get you around most urban centers.

The ETR100U not only can maneuver in tight spaces, its 20° gradient capacity will take you up ramps.

The ETR100U electric cargo trike can be charged with a standard US power socket; so don't have to make a trip to the gas station.

For those interested, eTrikeCo offers a variety of special wholesale options for delivery fleets.
